### We can help by:

- Identifying unsafe medicine use and storage
- Training you or your caregiver on medication management
- Teaching you to better manage blood pressure and blood sugar
- Educating you about medications
- Coordinating care between pharmacies and doctors
- Recommending tools to help you take your medications on time

### Do you take several medications, or help someone manage their many medications?

Taken correctly, medications can help us feel better and live longer. But making mistakes with medications can lead to serious health problems.

The good news is that a team of experienced pharmacists and nurses is here to help. The C-MEDS program from Independence at Home helps seniors and their caregivers take medications safely for better health. ***Even better news: the C-MEDS program is free.***

## Do you know someone who needs help managing their medications?

Medications can help us feel better and live longer, but they can also be dangerous if taken the wrong way. Many people make mistakes when taking their medicine. In fact, about 50 percent of patients do not take their medications as prescribed.\* These mistakes can cause serious problems, ranging from falls to medical conditions, hospital stays and even death.

The good news is, we have an experienced team of pharmacists and nurses to help you manage your medications. Our goal is to help minimize problems with medicines to increase health outcomes with safe medication use. Medication Safety Program services are provided at no cost to the community.

### Do these questions apply to you—or someone you care for?

- Do you take five or more medications?
- Does more than one doctor prescribe medications for you on a regular basis?
- Do you get your prescriptions filled at more than one pharmacy?
- Is it hard for you to take your medications as prescribed, or do you sometimes choose not to?
- Are there any medications that you need that you are unable to get?
- Do you have questions about how your medicines work and how to take them?

If you answered yes to any of these questions, call us today for help: 866-421-1964

To be eligible for this program, you must be:

- An adult 55 years and older who is having issues related to medication management.
- An adult caregiver who assists a person 55 years and older with their medication management.

## CRENSHAW/LAX TRANSIT PROJECT Crenshaw BI Station Area Restoration Closures

### WHAT TO EXPECT

Restoration of Crenshaw BI in three phases, scheduled to begin in June 2018

One Gateway Plaza  
99-13-1  
Los Angeles, CA 90012

**Metrolink**

# Crenshaw Bl Restoration: What You Need to Know

## What is restoration?

The Crenshaw/ LAX Transit Project has been actively under construction along Crenshaw Bl since January 2014. Over the past few years, major milestones have been achieved in tunnel completion and station excavation. As the Crenshaw/LAX Transit Project gets closer to opening day, fall of 2019, a final phase is necessary to restore the road over the three underground stations along Crenshaw Bl.

Restoration will require the removal of the concrete panels lining Crenshaw Bl over each station box. Utilities currently hanging from beams will have to be permanently secured before the road sections are backfilled. Once temporary supports are removed and backfill is complete, the road will be repaved. The last phase of the restoration process will entail reconstruction of curbs, gutters, sidewalks and ADA ramps.

## When will restoration occur?

The restoration of Crenshaw Bl is anticipated to begin in June 2018. Each phase of restoration will be implemented immediately following the other.

## Where will restoration occur?

Restoration will begin at the three underground station areas along Crenshaw Bl. Work at each station will be performed separately as three phases in progression from south to north.

The first phase will implement a closure at the Leimert Park Station area and the at-grade transition section. This phase will require a closure of Crenshaw Bl from 48th St to 43rd St/Homeland Dr. The closure for the first phase will last 43 days.

The second phase will implement a closure at the Martin Luther King Jr. Station area. This phase will require a full closure of Crenshaw Bl from Stocker St to Martin Luther King Jr. Bl. The closure for the second phase will last 23 days.

The third phase will implement a closure at the Expo/Crenshaw Station area. This phase will require a full closure of Crenshaw Bl from Coliseum St to Exposition Bl. The closure for the third phase will last 37 days.

### WORK ALONG CRENSHAW BL IN THREE PHASES SCHEDULED TO BEGIN IN JUNE 2018

#### Phase 1: Leimert Park Station Restoration

- > 48th St to 43rd St/Homeland Dr
- > 43-day closure

#### Phase 2: Martin Luther King Station Restoration

- > Stocker St to Martin Luther King Jr. Bl
- > 23-day closure

#### Phase 3: Expo/Crenshaw Station Restoration

- > Coliseum St to Exposition Bl
- > 37-day closure

As part of the restoration closure operation, Traffic Control Officers (TCO) will be deployed at critical intersections to safely manage traffic conditions along the detour and alternate local access routes.

For information about taking Metro buses or trains, please call 323.GO.METRO (323.466.3876).

For information about bus and traffic detours, please visit [metro.net/crenshaw](http://metro.net/crenshaw).

## Project Overview

Metro's Crenshaw/LAX Transit Project will extend from the existing Metro Expo Line at Crenshaw and Exposition Boulevards in Los Angeles, and merge with the Metro Green Line at the Aviation/LAX Station on Aviation Bl and Interstate 105 in El Segundo. The line will travel 8.5 miles, serving the cities of Los Angeles, Inglewood and El Segundo.

Once in operation, the Crenshaw/LAX Line will offer alternative transportation options to congested roadways providing significant environmental benefits, economic development and employment opportunities throughout LA County. Riders will have easier connections within the Metro Rail system, municipal bus lines and other regional transportation services.

**Disclaimer:** Construction is a dynamic process and information is subject to change without notice.
