We can help by:

- Identifying unsafe medicine use and storage
- Training you or your caregiver on medication management
- Teaching you to better manage blood pressure and blood sugar
- Educating you about medications
- Coordinating care between pharmacies and doctors
- Recommending tools to help you take your medications on time

Contact us today!

We can help you safely manage your medications today.

communityoutreach@scanhealthplan.com

Do you take several medications, or help someone manage their many medications?

Taken correctly, medications can help us feel better and live longer. But making mistakes with medications can lead to serious health problems.

The good news is that a team of experienced pharmacists and nurses is here to help. The C-MEDS program from Independence at Home helps seniors and their caregivers take medications safely for better health.

Even better news: the C-MEDS program is free.

Do you know someone who needs help managing their medications?

Medications can help us feel better and live longer, but they can also be dangerous if taken the wrong way. Many people make mistakes when taking their medicine. In fact, about 50 percent of patients do not take their medications as prescribed.* These mistakes can cause serious problems, ranging from falls to medical conditions, hospital stays and even death.

The good news is, we have an experienced team of pharmacists and nurses to help you manage your medications. Our goal is to help minimize problems with medicines to increase health outcomes with safe medication use. Medication Safety Program services are provided at no cost to the community.

Do these questions apply to you—or someone you care for?

- Do you take five or more medications?
- Does more than one doctor prescribe medications for you on a regular basis?
- Do you get your prescriptions filled at more than one pharmacy?
- Is it hard for you to take your medications as prescribed, or do you sometimes choose not to?
- Are there any medications that you need that you are unable to get?
- Do you have questions about how your medicines work and how to take them?

If you answered yes to any of these questions, call us today for help: 866-421-1964

To be eligible for this program, you must be:

- An adult 55 years and older who is having issues related to medication management.
- An adult caregiver who assists a person 55 years and older with their medication management.

* Brown MT, Bussell JK. (2011). Medication Adherence: WHO Cares?. Mayo Clin Proc.86(4): 304-314.
