

### **Sermon Based Small Group Questions – Oct. 15, 2017**

- 1) If Jesus followed the offering plates around on a Sunday morning and watched what we all put in, how would that make you feel?
- 2) Did you know that Scripture speaks of giving and financial stewardship more than anything else? Why do you think that is?
- 3) Why do you think when Jesus spoke about the different ways people gave their offering at the temple, he did so in the hearing of all the people? Isn't that a private issue between each person and God? Why would He share it publically?
- 4) Of the 3 things mentioned in the sermon that an offering "is not about", which one(s) stuck out to you and why?
- 5) What is the difference between giving "out of your abundance" and giving "sacrificially"?
- 6) Statistics show that as a person's income increases, their charitable giving often goes down? Why do you think that is?
- 7) Discuss the meaning of the statement, "God measures not how much we give, but how much we choose to retain!"
- 8) Discuss why giving according to a specific amount (such as \$100) or percentage (10%) is not the same as what Jesus was advocating for in this passage.
- 9) Which of 4 "lessons for us from this poor widow and her offering" was most helpful?
- 10) Which of the 4 challenging questions were most impacting to you and why?
