YOUR PARTNERSHIP

enables us to continue to be conduits of God's renewing love in the lives of hurting missionaries like Bob (the name has been changed) who visited our office recently.

When Bob arrived he was discouraged and uncertain about what he would receive during his time with us. Over the next two weeks, Bob became more aware of how his life choices had contributed to his burn-out. He developed a plan to cooperate with the healing God desires to do in his life. He reported that he is returning to his ministry location with a new vision and excitement for his life and ministry.

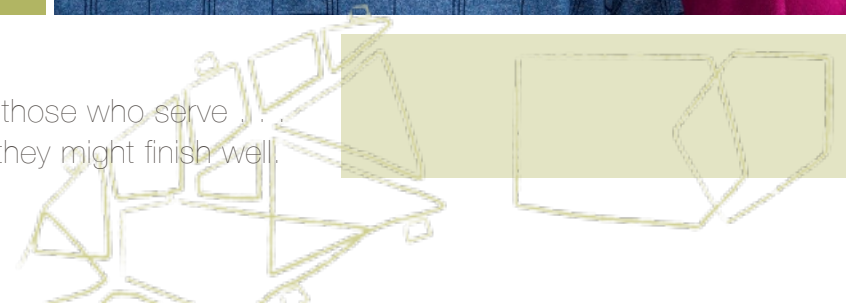

Thank you for assisting us to enhance the life quality, ministry effectiveness, and longevity of missionaries throughout Asia and around the world. We are grateful.
