

What Can \$300 Do?

Dear Friend,

At a recent international conference, the group was given \$300 to decide its best use among a variety of ministries. We were amazed at what could be done to further the advancement of the kingdom with just \$300. We thought we'd share some of these ideas with you.

- Buy MP3 players and load with the Bible in the local language (example: tribal languages of Central America, Muslim, Buddhist, or Hindu unengaged/unreached peoples in Asia)
- Train ten Indian leaders to be able to train others with practical methodology for planting rapidly reproducing churches within one of the regions of India.
- Fund a gifted evangelist for ten preaching tours throughout India.
- Fund a church planting team for one month's work among a major unengaged/unreached people group in Asia.
- Purchase 180 Bibles or New Testaments for distribution in an unreached area.
- Buy a goat or cow for a poor East Asian family, which would provide milk for the children and a micro-enterprise.
- Challenge a youth group from a large church in Vancouver, Canada, to double the money to give to two Indonesian church planting projects. Both projects involve training to allow church planters to develop self-sustaining and reproducible micro-businesses in parts of the country with very few known believers.

It was a creative way to see what \$300 can do!

Thank you for your prayers and support. We appreciate you!

Blessings,

Dick & Terri
