GOD'S WORD WILL TRANSFORM YOUR LIFE!

If ye continue in my word, then are ye my disciples indeed; And ye shall know the truth, and the truth shall make you free. [John 8:31b-32]

Nothing can change the lives of people like the Bible. I've seen alcoholics and addicts get their lives sober and clean because they started reading the Bible. I've seen God's Word change self-centered, narcissistic men who abuse and misuse women into godly husbands, wonderful dads, and upstanding citizens in the community.

Laws can't change human hearts. If I believed they could, I'd be a politician. I have zero faith in politics to actually change the greatest problems on the planet. You can make laws to outlaw racism and bigotry, but no law will turn a bigot into a lover of people of other races. Only God can do that.

Jesus said it like this *If ye continue in my word, then are ye my disciples indeed;* And ye shall know the truth, and the truth shall make you free (John 8:31-32).

Secular universities all around the world have the second half of that verse printed in stone on university buildings: "The truth shall make you free." But those same universities ignore the first part of the verse. Your own opinions and the opinions of others won't set you free. Only the Bible will. Even when obeying the Bible is hard and uncomfortable, it will set you free.

Do you believe everything you read online? Of course not! Do you believe everything you watch on TV? No. Do you believe everything you read in the newspaper and in People magazine? No. Why do we spend more time reading and watching what we know is a lie than reading what we know is the truth?

The fundamental question you'll face in life is this: What will be your authority? Will it be God's Word or the world? Will it be what God says is true or public opinion? You need to decide, and you need to do it soon.

If the Bible isn't infallible, inerrant, and flawless, you're in a heap of trouble. The Bible tells you how you can be saved. It tells you that your life isn't an accident. The Bible tells you how to be forgiven. It tells you how God can use you for good in the world.

Blessed be the Lord, who daily loadeth us with benefits, even the God of our salvation. Psalm 68:19

COLOSSIANS 3:12-17

- MINISTER: Put on therefore, as the elect of God, holy and beloved, bowels of mercies, kindness, humbleness of mind, meekness, longsuffering;
- **CONGREGATION:** Forbearing one another, and forgiving one another, if any man have a quarrel against any: even as Christ forgave you, so also do ye.
 - **MINISTER:** And above all these things put on charity, which is the bond of perfectness. And let the peace of God rule in your hearts, to the which also ye are called in one body; and be ye thankful.
- **CONGREGATION:** Let the word of Christ dwell in you richly in all wisdom; teaching and admonishing one another in psalms and hymns and spiritual songs, singing with grace in your hearts to the Lord.
 - ALL: And whatsoever ye do in word or deed, do all in the name of the Lord Jesus, giving thanks to God and the Father by Him.

"God Loves You and We Do Too"

Pastor Toney's Corner

How's Your Love Life?

That line will usually get people to stop and listen...for a few minutes but most of the time it's talking about some kind of worldly or physical love. **There is no greater love than Gods Love**, For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life (John 3:16). And when we begin to grow in our walk with the Lord, the world should begin to see God's love through us. On the night Jesus was betrayed He said to His disciples A new commandment I give unto you, That ye love one another; as I have loved you, that ye also love one another. By this shall all men know that ye are my disciples, if ye have love one to another (John 13:34-35). Notice that Jesus did not say here is a suggestion; but, He said "A NEW **COMMANDMENT!**"

Our family, friends, and coworkers will know we are Christians by our Love. The way we love other people is also an indicator of how closely we are walking with The Lord. When Jesus asks which is the great commandment of the law, *Jesus said unto him, Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind. This is the first and great commandment. And the second is like unto it, Thou shalt love thy neighbour as thyself. On these two commandments hang all the law and the prophets* (*Matthew 22:37-40*). One of the greatest human needs is love. God knows this because He created us for a relationship in His own image and likeness. God desires intimacy and to enjoy this intimacy we must come to Him with everything — our fears, faults, failures, and shame so that He can love, forgive, and restore us. So stop trying to hide from GOD. Go to HIM! *Trust in the LORD with all thine heart; and lean not*

unto thine own understanding. In all Him, and He shall direct thy paths

Now, let me ask again, how's your love life? Are you reflecting the love God? God cares about <u>every detail of</u> <u>your life</u>, so INVEST <u>time</u> with Him <u>daily</u> and <u>develop</u> a better LOVE life with God, family, and those around you.

Chorus:

Welcome into this place, Welcome into this broken vessel. You desire to abide in the praises of Your people; So we lift our hands, and we lift our hearts, As we offer up this praise unto

Verse:

Creation declares Your Glory, And the universe declares Your Majesty; Yet You choose to abide in the praises of Your people, So we offer up this praise unto Your Name.

This Week in Black History...

When he announced his "*Theory of Relativity*" 100 years ago, it solidified the German-born scientist's legend. But what some may not know is that Einstein was also a staunch supporter of civil rights causes and once called racism a "disease of white people" in a speech.

In 1946, Einstein was invited to Lincoln University to offer a

commencement speech to its students and to also accept an honorary degree. The speech was a significant moment as Einstein, who was in poor health, famously refused speaking engagements and honorary degrees. Einstein used the platform of a predominantly Black college to speak to students about racism, something he faced as a Jew living in war-torn Germany.

Einstein arrived in the United States in 1933 and began teaching at Princeton University, a position he held until his death 22 years later. Einstein fled Nazi Germany ahead of the genocide of what various reports indicates was up to a 6 million Jews. While at Princeton, Einstein began to notice that Blacks in America were treated similarly to how Jews were treated in Germany.

Einstein was rumored to have joined the NAACP in 1933 when he arrived to America, and another unconfirmed but account was that he supported the nine black "Scottsboro Boys" of Alabama, who were falsely white women. He was close to **W.E.B. Du Bois**, close that Einstein elected to stand as a character when the federal governforeign agent.

Actor **Paul Robeson** pair remained friends for fascist regimes, lynching in soldiers who that has persisted in **Marian Anderson** and Einstein struck up a friendship in 1935, and the for two decades. Aligned by their mutual distaste the two would also work together in the fight to eliminate response to a series of racially-motivated murders of Black returned from World War II. Another unconfirmed story some fashion is that when famed opera singer was refused a stay at a Princeton hotel Einstein opened his

home to her and did so every time she visited the area.

Given the climate of the United States at the time, much of Einstein's connections with civil rights received little fanfare. None of the major outlets carried news of his speech and only African-American newspapers covered the event.

Einstein died at Princeton Hospital after the rupture of an abdominal aortic aneurysm on April 18, 1955. He was 76. Einstein's life could have possibly been saved with surgery, but he believed prolonging life in such a way was a selfish choice.

AUGUST 1-7, 2015 – World Breast Feeding Week

Thought for the Week

Breastfeeding is nature's health plan! (Author unknown)

6 REASONS (FROM A LIST OF 101) TO BREASTFEED!

- 1. <u>The American Academy of Pediatrics recommends it</u>. Human milk is the preferred feeding for all infants, including premature and sick newborns. It is recommended that breastfeeding continue for at least the first 12 months, and thereafter for as long as mutually desired.
- 2. <u>Breastfeeding promotes bonding between mother and baby</u>. Breastfeeding stimulates the release of the hormone oxytocin in the mother's body. It is now well established that oxytocin, as well as stimulating uterine contractions and milk ejection, promotes the development of maternal behavior and also bonding between mother and offspring.
- **3.** <u>Breastfeeding satisfies baby's emotional needs</u>. All babies need to be held. Studies have shown that premature babies are more likely to die if they are not held or stroked. There is always the temptation to prop up a bottle next to the child, or, when the baby is a little older, to let the child hold his/her own bottle and sit alone. This is emotionally unsatisfying to baby, and can be dangerous physically. An unsupervised child can choke. Also, propping up bottles overnight leads to tooth decay.
- **4.** <u>Breast milk provides perfect infant nutrition</u>. Human milk is uniquely superior for infant feeding and is species-specific; all substitute feeding options differ markedly from it. The breastfed infant is the reference or normative model against which all alternative feeding methods must be measured with regard to growth, health, development, and all other short and long-term benefits.
- 5. <u>Breast milk contains immunities to diseases and aids in the development of baby's</u> <u>immune system</u>. Formula provides neither of these benefits.
- 6. <u>Suckling helps shrink mother's uterus after childbirth</u>. Nursing will help you to regain your figure more quickly, since the process of lactation causes the uterus (which has increased during pregnancy to about 20 times its normal size) to shrink more quickly to its pre-pregnancy size.
