

TWO HEARTS

The storms in life were many; you found yourselves alone
You started out just as friends, then you found your love had grown
You stood beside each other when the going got too rough
Then one day you realized that love was good enough

When life is moving oh so fast there's things we fail to see
Like trusting in the love of God the way it was meant to be
Now you stand before His throne; Ask blessings and you'll receive
The Lord will help you through your lives if only you'll believe

(CHORUS)

Two hearts come together; Two lives are joined as one
Love has brought you here before the Father and the Son
The vows and the promises; May they remain forever true
Trust in God and walk in love and He'll look after you

Remember when the storm clouds blow of how you feel today
Keep strong the love within your hearts and it will light your way
Stay friends within your marriage; Stay true for all your lives
Joined before the eyes of God; Forever man and wife

(RETURN TO CHORUS)

Walk with God the rest of your lives
And He'll take care of you
