

## OH GOD

OH GOD

Lord my heart is heavy  
With pain I feel for you  
It was such a price they called sacrifice  
Oh GOD what did we do  
I was part of the reason  
That you died for sin  
And the memory it haunts me  
I see the cross again and again  
Again and again

I know it had to hurt Lord  
When they put thorns on your head  
Forgive them they don't know what they're doing  
That's what you said  
And the blood ran from your body  
Onto the dusty ground  
You said that it was finished  
And you died without a sound  
Yet you're still around

Oh GOD, what did we do  
This old world just didn't believe  
That it was really you  
Yet you died, for our sins  
I believe that your coming back  
Coming back again

I'd like to just say "Thank You Lord"  
I know you died for me  
Now I'm saved and free from the grave  
Your blood has set me free  
Sweet Jesus someday I'll see you  
I'll know that your my friend  
Who can say it might be today  
Because your coming back again

Oh GOD, what did we do  
This old world just couldn't believe  
That it was really you  
Yet you died, for our sins  
I believe that your coming back  
Coming back again...
