

## MOUNTAIN OF MIRACLES

I came to this mountain one cold Saturday morning  
Weary from the road that I'd been on  
I'd burned every bridge and I'd slammed every door  
Lonesome and weary and hanging by a song

A lifetime of sinning and living wild in the fast lane  
Had me kind of sick and feeling blue  
Lost a home and family, nothing much to live for  
Then someone told me about You

(Chorus)

Mountain of Miracles someone showed me  
Led by a Man with nail scarred hands  
Said His name was Jesus and He loves me  
Truly the Son of God and the Son of Man

Once the scales were lifted from my tired, tear-stained eyes  
A revelation hit me like a train  
I learned it the hard way, but now it's clear as bright day  
That when you're chasing pleasure you're really chasing pain

So if you're feeling broken, come climb on up this hill  
You'll feel the radiance of His splendor  
We'll share a pew and a tear or two  
Come join me in my mountaintop surrender

(Repeat Chorus)
