

## BLESSED ASSURANCE

An October night back in '54 we were married  
And I just didn't what I was gonna do  
So I got a job and I put in my 40  
And I came home to the love I found in you

It wasn't long till you gave me a daughter  
What a change, man, it brought this house alive  
I never knew so much love could be found, Lord  
Every time I look into your eyes

(CHORUS)

And the vows that I gave you, many years ago  
Are the same vows that I feel today, I just want you to know  
My heart belongs to no one else, it will be that way for life  
Blessed assurance between a husband and his wife

The wind blew mighty cold one winter  
The was a chill in the room where it came in around the sills  
So we armed our house with the love that we held between us  
And girl you know I'm holding that love still

The years passed by and you gave me a family  
The youngest grown and a grandchild on the way  
Through the good times and the bad times you stood by me  
I love you is what I'm trying to say

(RETURN TO CHORUS)

And the years to come will surely be the best ones  
We'll stand together like we always do  
A forever love is what I promised  
After all these years I'm still in love with you

(RETURN TO CHORUS)

Blessed assurance between a husband and his wife
