

CORONAVIRUS: FOUR WAYS TO PRAY

1. Pray for those already impacted and for those most vulnerable.

We believe that God has the power to heal every sickness and every disease. Pray that His healing power would be manifested across the nations of the earth that are facing this crisis in their own neighborhoods, communities, and families.

2. Pray for the scientists and researchers to be led by the Holy Spirit as they seek to provide treatments and vaccines.

3. Pray that the Church rises up in faith and not in fear.

“Do not be anxious about anything, but in every situation, by prayer and petition, with thanksgiving, present your requests to God. And the peace of God, which transcends all understanding, will guard your hearts and your minds in Christ Jesus.” – Phil. 4:6-7

4. Pray for our missionaries and our family in Christ.

Pray God’s protection on them, that they would stay strong, healthy, and effective where God has called them to be. Pray that God will be glorified in the response of His servants and followers throughout the world.

We believe in Jesus as Savior, Healer, Baptizer in the Spirit, and Soon-Coming King. As we pray for healing, may we not lose sight that our hope is not in a medical breakthrough or in the effective systems of the world. Our hope is in Christ and the Blessed Hope of His soon return. Disasters such as these should remind us of our eternal hope in Christ and awaken us to the need to share His hope with those around us.
