

Session Re-opening Approval for Worship:

1. Out of caution and carefulness, we are asking people to wear masks during the entire worship service.
2. We will honor those who cannot wear a mask due to medical reasons and we will provide face shields.
3. We will encourage the high-risk population to watch the service online and stay home without addressing age.
4. We will set up an online registration which opens on a specific date/time. The registration will allow us to determine how many people in their family group.
5. We will have masks, face shields, gloves, hand sanitizer, and wipes available.
6. We will provide signage for: entrance/exits, traffic flow, 6 ft distancing, symptoms, please wear a mask, and how to wash hands.
7. Individual communion sets will be used when we resume in-person communion.
8. We will have space for approximately 120 people in the MPR.
9. We will ask leaders to be flexible and give up their seats if unregistered visitors arrive.
10. We will provide Fellowship Hall for leader overflow to watch online service.
11. We will provide seating for singles and family groups of different sizes. We will encourage those seating arrangements but also understand that we can't know who has been socializing outside of church if they choose to sit together.
12. We will mark off floor/sidewalks for social distancing (6 ft).
13. We will seal off drinking fountain but provide cups for automatic water bottle filler.
14. Services will be approximately 45 minutes with minimal singing.
