This is a little story about four people named **Everybody**, **Somebody**, **Anybody** and **Nobody**.

There was an important job to be done and **Everybody** was sure that **Somebody** would do it.

Anybody could have done it, but **Nobody** did it.

Somebody got angry about that because it was **Everybody's** job.

Everybody thought that **Anybody** could do it, but **Nobody** realized that **Everybody** wouldn't do it.

It ended up that **Everybody** blamed **Somebody** when **Nobody** did what **Anybody** could have done.
