About Reno:

The [Reno metropolitan area](#) sits in the beautiful Truckee Meadows at the foot of the Sierra Nevada Mountains with easy access to Lake Tahoe. Reno is in the process of transitioning from a gaming destination to a tech hub. Tesla, Google, Amazon, Switch, and Rackspace have made large investments in Reno and are creating many jobs as an alternative to Silicon Valley.

Reno is young, educated, outdoors-oriented, irreligious but "spiritual," morally-permissive, wealthy, tech-savvy, and multiethnic. With increasing economic

opportunities, the area's population is [growing rapidly](#) without signs of slowing down. The roughly 440,000 residents who call the Reno metropolitan area home enjoy a wide variety of recreational activities including world-class skiing/snowboarding, hiking, fishing, entertainment, concerts, and arts. Reno is also home to the University of Nevada Reno, which has been ranked in the top 200 U.S. universities in the 2015 *U.S. News and World Report* rankings.
